## Animal communication

Kelly is also an animal communicator, and halfway through my reading, she began talking to my dog.

My 10-year-old pooch told her that whenever I'm upset, I sit in a particular corner in my room. That's exactly what I do, and I must admit that hearing that made me feel weirded out yet warm inside (like I was never really alone during those times).

Even though we talked about a lot of other things throughout the 90-minute session, the dog-talk moment was the only time I felt a bit emotional.

## The aftermath

The advice I got from her? To not get disillusioned by all the struggles I face, because the more I let things go, the more I'll attract the good

Talk about auras, this is one reader who exudes good vibes the minute you meet her. Described as a natural-born spirit channel, psychic medium, and a tarot, angel and oracle card reader, Kelly Tan uses her gift to heal and guide seekers who are stuck at their lives' crossroads. She channels angelic and goddess energies, as well as applying her skills as a certified Neuro-linguistic Programming practitioner to help facilitate each session which taps into the seeker's growth and healing (\$210 for an hour's session, extensions at \$4 per minute).

Alternatively, she conducts oracle, angel and tarot card consultations to connect her seekers with the spirits. If you're unfamiliar with card readings, here's the gist: you select the cards you feel strongly about, and the selected cards will reveal messages and pictures that are interpreted to answer your life questions – past, present and future. Kelly charges \$150 for phone and in-person consultations for \$150. Can't do either? Email consultations start from \$40 per question with a minimum of three. Kelly is also known to follow up with her clients post-reading, so rest assured she'll do everything in her power to help.

### 3 Foretelling Females On Guiding The Way To An Uncertain Future

Forging destinies and seeking clarity

Em Mampusti, on 24 Jul 2020  
Features Writer

The future is, well, a tricky thing to tell. Life, after all, is an absolute roller coaster — at every unexpected twist and deliberate turn, you'll be brought to exhilarating heights as well as depressing downs. If we can't always know for sure what's in store for us, then we at least want to know what action to take to see the best possible outcome.

For this, a lot turn to the mystic arts for help, enlisting physical or online tarot and psychic readings among many others to get an outside perspective in their life. Undoubtedly, this isn't an easy thing to wrap your head around, especially if you're a sceptic. So three foretelling females share with us how they use their great intuition and spiritual connections to light our path amidst this uncertainty that looms before us.

*There are many ways to find the answer to your life's questions*

Likewise [Kelly Tan](#), Lightworker and Priestess to Guan Yin, the Goddess of Mercy, doesn't think the future is something that's fixed and we can easily predict. "The future is a living thing, a dynamic process that we help co-create with our choices," she explained, adding, "Our choices shape our fate." But by using psychotherapy techniques and connecting with Angels, Spirit Guides, and deceased loved ones, she works to help us navigate through life. "We are each a perfect, intricate combination of mind, body, and spirit. My practice honours that beautiful complexity," Kelly added.

*Move towards a brighter future by being proactive*

Close to this, Ieshara sees 2020 as "The Year of Alignment," meaning there will be many changes collectively and individually. "Many pains, struggles and events will act as catalysts and Truths will come to the surface," she detailed, moving us forward to the next year where she sees movement taking place. Because the pandemic made us rethink what matters to us, the movement will happen collectively as "people will be relocating, bringing inspired works of art, changing careers, relationships making things happen." In short, "people will choose not to delay any further what needs to be done" and take action.

Perceiving all these, the challenge for us in 2021 and for the years to come, according to Kelly, is for us all to rise to the occasion and overcome it all. The present is bleak and everything is uncertain, but Kelly said, "I choose to have faith in us. We've done it before; we can do it again."
